

List of Figures

2.1. Bills and laws—United States vs. Switzerland on defense	29
2.2. Media—United States vs. Switzerland on defense	29
2.3. Culture across the Chanel—cultural laws in the United Kingdom and France	30
2.4. Questioning health—legislative questions cross-nationally	31
3.1. Number of CAP conference (2006–17) papers containing attention data for the listed agendas	37
3.2. Percentage of CAP conference (2006–17) papers containing media agenda data	39
3.3. Percentage of CAP conference (2006–17) papers dealing with inter-agenda impact	40
3.4. Percentage of CAP conference papers over time dealing with inter-agenda impact	40
3.5. Number of CAP conference (2006–17) papers with comparative evidence	42
3.6. Percentage of CAP conference papers over time with comparative evidence	42
3.7. Number of CAP conference (2006–17) papers containing evidence on various countries (and two US states)	43
3.8. Percentage of CAP Conference Papers over Time with US Evidence	44
3.9. Number of CAP conference (2006–17) papers using evidence on all issues or on selected issues	45
3.10. Percentage of CAP conference papers over time using evidence spanning all CAP issues	46
4.1. Attention across domains: economy	55
5.1. Proportional attention to state reform by Flemish and Francophone parties and the government (agreement)	63
5.2. Proportional attention to state reform by Flemish parties	63
5.3. Proportional attention to state reform by Francophone parties	64
6.1. Federal-provincial and interprovincial correlations in issue attention	72
6.2. Attention to environment across series	72
7.1. Share of closed agenda by CAP topics	81

List of Figures

8.1. Immigration issue in the total party system agenda	88
9.1. The impact of niche party vote on issue attention	95
10.1. Reunification issue in Germany	103
11.1. Béla Biszku's case	112
12.1. Arrangement laws by the number of topics and subtopics, 1985–2013	118
13.1. Correlation between electoral manifestos and legislative agendas	126
14.1. Attention to safety in policy domains—coalition agreement in 1977 and 2010	134
15.1. New Zealand Supreme Court agenda with law and business (May 2004–May 2013)	140
15.2. New Zealand Supreme Court agenda without law and business (May 2004–May 2013)	141
15.3. Comparing New Zealand Supreme Court agenda and opposition party question time agenda (Nov. 2009–Nov. 2011)	142
16.1. Party pledges in Portugal, 1995–2011(ratios)	150
17.1. Attention on macroeconomic issues in Spain	154
18.1. Policy issues of top-down and bottom-up direct democratic votes (1990–2014)	164
19.1. Public priorities (MIP) versus parliamentary bills (2002–13)	172
19.2. The distribution of annual budgetary changes during the one-party regime	173
20.1. Frequency of mentions of the economy and law and crime in the Speech from the Throne, 1945–2012	181
20.2. Distribution of percentage changes in attention to major policy topics in the Speech from the Throne, 1945–2012	182
21.1. Attention to health across policy tools by Congress, 1947–2015	190
22.1. Relative attention to terrorism on the agendas of the European Council, European Commission, and EU citizens	198
23.1. Communities of legislators and issues, by partisanship	205
23.2. Proportion of bills introduced, for men and women, across “women’s issue” topics	206
23.3. Communities of legislators and issues: “topic communities” by year	207
24.1. Drinking water safety bills and resolutions vs. natural gas and oil bills and resolutions	215
24.2. Percentage of news clips and governor’s address for drinking water safety and natural gas and oil	215
25.1. Models of the public and policy agenda	222
25.2. Average MIP response, by major topic, 1993–2012	225

25.3. United States, United Kingdom, and Spain, 1993–2012	227
25.4. Histogram of percent-percent change in the public agenda, 1993–2012	229
25.5. Problem status and MIP responses, 1993–2012	231
25.6. Media and MIP responses, 1993–2012	232
25.7. Executive speeches and the public agenda	236
26.1. The map of American Public Agenda, 1947–2015	247
26.2. Issue priorities, United States: macroeconomics (vs. foreign affairs)	249
26.3. Issue priorities, United States: unemployment (vs. budget)	250
26.4. Predicted probability, unemployment (of macroeconomics)	251
26.5. Predicted probability, unemployment (of macroeconomics)	252
26.6. The map of Israeli Public Agenda, 1969–2015	253
26.7. Issue priorities, Israel: macroeconomics (vs. foreign affairs)	254
26.8. Issue priorities, Israel: peace/conflict (vs. defense)	255
29.1. Distribution of annual number of oral questions across countries (box-plots)	285
29.2. Estimated effect of the passing of time on the number of oral questions	288
29.3. Number of oral questions over time	289
29.4. Agenda fragmentation	290
29.5. Estimated effect of the passing of time and the unemployment rate on the number of topics	291
29.6. Distribution of attention change across countries	294
30.1. Legislative activities across countries	306
30.2. Predicted number of laws on a topic (full-count model)	311
30.3. Predicted number of laws on a topic (mean values)	313
31.1. Share of Europeanized parliamentary questions	322
31.2. Issue concentration across countries and over time (entropy scores, Shannon’s H)	325
32.1. Attention to the environment at national and EU level	345
32.2. Attention to the environment and macroeconomy at national level	348
33.1. Issue attention for childcare policy in Spain (count)	366
33.2. Issue attention for childcare policy in Spain in legislation (count)	366
34.1. Attention to healthcare in seven countries, 1980–2013	385
